

How to Download and Access the BLDAP Python Course Materials (Chromebook)

All materials for the course are distributed through **Google Classroom**. Follow the steps below on a **Chromebook** to download, organize, and access the Python course materials.

Step 1: Open Google Classroom

1. Open **Google Chrome**.
2. Go to **Google Classroom** and log in.
3. Navigate to the Python course materials.

Step 2: Download the Course Folder

1. Locate the shared folder (for example, `00_intro_to_python`).
2. Click the **three dots** (⋮) next to the folder name or right-click (two-finger click on the trackpad).
3. Select **Download**.

Important:

Download the **entire folder**, not individual files or `.ipynb` notebooks.

Step 3: Locate and Unzip the Folder

1. Open the **Files** app on your Chromebook.
2. Click **Downloads** in the left sidebar.

3. Find the downloaded **.zip** file.
4. **Double-click the .zip file** and click on “Extract all”

Step 4: Organize the Folder

5. (Optional but recommended)
 - In the **Files** app, drag the extracted folder into **My files** or create a folder named **BLDAP** inside *My files* and move it there.
6. Once confirmed, you may **delete the .zip file** to avoid confusion.

Step 5: Fix “Folder Inside a Folder” (If Needed)

7. Open the extracted course folder.
8. If you see another folder with the **same name inside it**:
 - Open the inner folder
 - Select the **tests** folder and the **.ipynb** notebook
 - Press **Ctrl + A** to select everything
 - Drag those items into the **top-level course folder**
9. Delete the now-empty inner folder.

Step 6: Upload to Google Drive

10. Open **Google Drive (My Drive)** in your browser.

11. Drag the course folder (e.g., `00_intro_to_python`) from the **Files** app into **My Drive**.
12. Wait for the upload to complete.

Step 7: Open the Notebook

14. In Google Drive, open the uploaded course folder.
15. Double-click the `.ipynb` **Jupyter notebook** file to open with Google Colab.
16. Follow the instructions provided in the notebook and by your instructors.
